

WOMAN FOOTBALL PLAYER SERIE A AND SERIE B

SEASON 2021/2022

ASSOCIAZIONE ITALIANA CALCIATORI

[ITALIAN FOOTBALLERS ASSOCIATION]

A.I.C. is an organization that protects and assists professional footballers of Serie A, B, Lega Pro and, since 2000, also amateur male and female players, including of futsal and beach soccer players.

In 2017 AIC established the Women's Football Sector with the specific aim of pursuing the objectives identified for this area and to protect its female members.

Since November 2020, the President is Umberto Calcagno who also holds the position of FIGC Vice-President. The vice-presidents are Davide Biondini for the professional sector, and, for the first time in the history of the Association, Sara Gama representing female football players and Giorgio Gaggioli for amateur soccer.

The Amateur Department and the Women's Football Sector are active throughout the country, thanks to a network of collaborators, a futsal sector, a dedicated legal office and an operative office in Rome.

1. Vaccinated subjects;
2. Subjects recovered from Covid-19 within the previous six months;
3. Susceptible subjects (not vaccinated or vaccinated with a single dose).

In reference to all the above categories, in order to take part to the sporting activity it is necessary to make 48 or 72 hours before the gathering:

1. Temperature measurement;
2. Molecular or antigenic immunofluorescence or chemiluminescence test.
(STRONGLY RECOMMENDED) Or rapid antigenic tests by lateral flow immunoassay, recognized by the health authority and performed by health professionals mandatory for all to be carried out, if possible, within 48 hours of the first meeting. Only for the susceptible category must be compulsorily repeated after 6/7 days;
3. A quantitative serological test is mandatory for all subjects at the time of the meeting.

If an athlete tests positive to Covid-19 must be removed from the team and follow the procedures provided by the competent authorities.

If the serological test is positive but the swab test is negative, the athlete must repeat the medical examination as specified below if he/she has not already made the post-healing examination, called RETURN TO PLAY.

In case of recovery from Covid-19 infection, it is necessary to make a new examination for the issuance of the certificate of fitness for competitive sports, EVEN IF THE PREVIOUS CERTIFICATE HAS NOT EXPIRED YET. The new visit includes specific examinations based on the severity of the Covid-19 infection; the more serious the illness, the more in-depth examinations will be carried out.

In the absence of these certificates, athletes can not take part in sporting activities.

SUBSEQUENT CONTROLS

FRIENDLY GAMES OR EVENTS BETWEEN TEAMS OF DIFFERENT CATEGORIES

The applicable protocol will be the one of the higher category team.

This protocol is temporary and linked to the current epidemiological situation.

In case of changes in the regulatory framework or in the health context, the indications may be modified according to the decisions of the competent authorities.
